

Lighting Control Solved

- Ideal for small and medium size venues and productions
- Simple, affordable, powerful
- Intuitive natural-language control
- Teachable, coachable and easy to remember
- Silent, compact design
- Programming simplified

Easy to Use

SELECT the lights you want to work with.

- No command line to learn – manage images, not numbers
- Cognito™ groups your lights automatically to reduce setup time
- Groups you create reduce programming time
- Real-time visual feedback of your lights at a glance

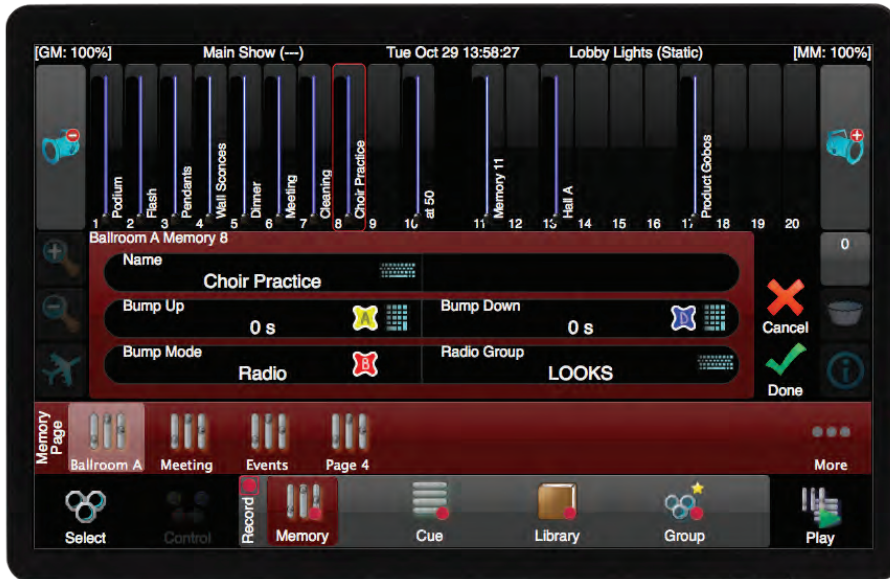

CONTROL your lights quickly and easily with a large, well-ordered assortment of tools.

- Never look at a DMX chart again
- Tools categorized by Intensity, Color, Position and Shape – recall them in an instant on the console hardware
- Predefined libraries get you programming fast
- Libraries you define keep your favorites at your fingertips
- Apply comprehensive, simple-to-adjust Effects to any attribute

RECORD what you see for ease of programming and playback.

- No cue number constraints – drag and drop the cues where you want them on a playlist
- Save your memories on a slider for on-the-fly recall – or organize the looks as cues into playlists for scripted shows
- Capture Groups, Colors, Positions and Shapes as your own custom libraries
- Cue Actions - associate powerful show control functions with any cue

PLAY back your work and see it come together.

- Unlimited cues and memories put you in charge of the show organization
- Hands on and heads up: Playback is made easy with well-positioned controls
- Configurable timing and transition options enables nuanced show playback

Lighting Control Console

Cognito™ will not intimidate the less-experienced user and will not disappoint the most demanding professional.

- DMX512 and Ethernet output, including Pathport, Art-Net and E1.31 sACN
- **neato™** iOS App extensions for remote control and playback
- Separate Intensity, Color, Position and Shape attribute timing
- Selectable color spaces and color temperature correlation across lights
- Automatic Move-In-Black feature with Memories and cues
- Power-over-Ethernet operation
- 7" capacitive touchscreen
- Rack-mountable, now with new Wall Station mode
- Multi-platform off-line editor

Cognito™ is available in three models: Starter, Pro512 and Pro1024. Each is priced to suit the artistic needs of:

- Schools
- Houses of worship
- Touring productions
- Museums
- Theme parks
- Community theaters
- Film and television production studios
- Corporate theaters
