

# Source Four **LED**

## CYC™

Source Four® quality and x7 color for cycloramas

# Source Four LED CYC™

## GET CYC-ED UP ABOUT x7 COLOR

The Source Four LED CYC adapter attaches to any Source Four LED luminaire to create the most elegant, colorful and easy-to-use light for cycloramas.

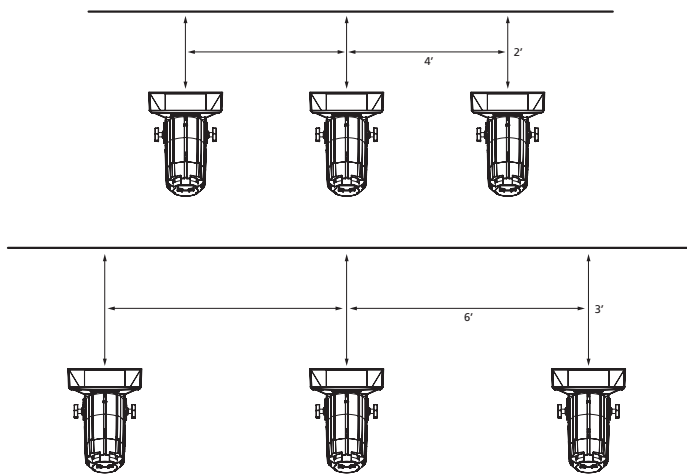

### Backdrops come alive with color

ETC's x7 Color System™ gives expansive color-mixing capabilities to the Source Four LED CYC, allowing for both bold and subtle hues. By fine-tuning the color output, certain tones in painted backdrops can be emphasized or subdued, bringing out the artistry of a design.

### The smoothest distribution

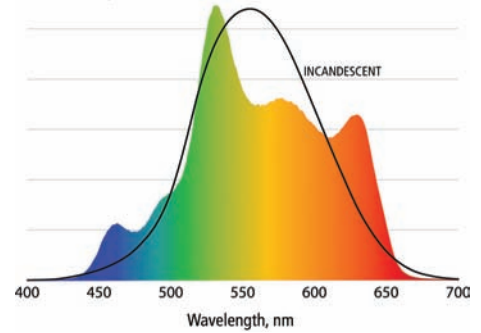

The output of the Source Four LED CYC evenly distributes across the cyclorama without visible scallops or gaps. Bright and smooth, the output resembles incandescent light.

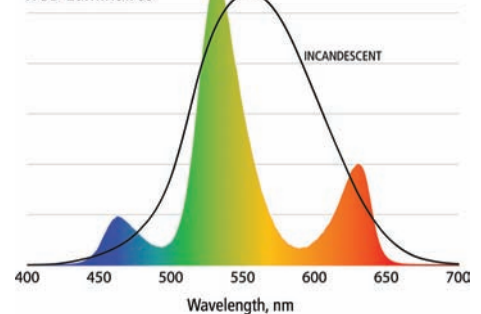

### Set up in seconds

Take the hassle out of LED cyc lighting! Instead of wasting huge amounts of time trying to get the lensing right, the Source Four LED CYC is ready to use immediately.
