

## HOTBOX™

HotBox™: So cool, they're HOT!

The box... one of the most useful, time tested, and attractive 3-dimensional shapes ever created is once again new and improved!

Just like its big brother the RokBox™, the HotBox™ also offers cutting-edge 4-in-1 LEDs, advanced electronics, a rock solid super-cool aluminum casing with dual hanging brackets and secure grip locking knobs... but in an even more compact/portable cute little package! It weighs in at just 3.5 pounds and is only 4 x 5 x 5 inches (7.25 inches tall including the brackets)!

The HotBox™ RGBW and HotBox™ RGBA both put out a ton of light with 7x 10-watt 4-in-1 LEDs, and its user selectable 3/4/5/8 or 9 DMX channel modes allow it to work great with any type of controller, including popular 3-channel controllers. You'll have full control of RGBW color mixing, 31 built-in programs, ultra smooth flicker-free 32-bit dimming, and even easy HSV color mixing ability in 3-channel mode.

The easy to use built-in 4-button LED control panel also allows total control over the fixture including master/slave settings, sound active mode, built-in programs, auto mode, custom color mixing, and user adjustable fade/strobe effects for a totally rocking light show. The HotBox™ also comes equipped with industry standard powerCON® compatible power input/output & 3-pin DMX connections!

You can take also full advantage of Blizzard's wiCICLE® wireless DMX system without the need for external power thanks to the wiCICLE enabled DMX jacks! An innovative design provides power to the system directly from the fixture's DMX jack, meaning even fewer cords and less setup time.

Add some sizzle to your light show with the HotBox™!

### Control Features

- RGBW/RGBA color mixing via 7x 10W 4-in-1 LEDs
- Variable electronic dimming & strobe
- Built-in color & chase macros via DMX
- Built-in automated programs via master/slave
- Built-in sound active programs
- Color mixing ability in standalone mode
- Rugged and well-built (It hits the gym regularly)
- Super-quiet variable-speed internal fan cooling
- Dual mounting brackets for positioning flexibility
- Flicker-free constant-current 400hz LED driver
- 3-pin male input and 3-pin female output
- PowerCon™ compatible AC power In/Out connectors

#### DISCLAIMER:

The power connector fitted to the fixture and fixture cord are designed for compatibility with products manufactured by Neutrik AG, Neutrik USA and their related entities, however they are not manufactured by, affiliated with or endorsed by Neutrik AG, Neutrik USA, or any related entity. Neutrik® and powerCON® are registered trademarks of Neutrik AG.

### Additional Features

- Beam Angle: 25 degree optics standard, 26 degree beam, 30 degree field
- Light source: 7x 10W 4-in-1 LEDs 100,000 hours.  
Operating Voltage: 100-250VAC 50-60Hz
- Power Consumption: 47W Max
- Luminous Intensity: 9,610 LUX (Full RGBW) @1M

### Weight & Dimensions

- Length: 5 inches (127 mm)
- Width: 4 inches (101.6 mm)
- Height: 5 inches (127 mm), 7.25 inches w/ brackets
- Weight: 3.5 lbs (1.6 kg)

### Warranty

- 2-year limited warranty, does not cover malfunction caused by damage to LED's.
