

# SlimPAR™ 64 RGBA

**SlimPAR™ 64 RGBA**  
Weight: 2.8lbs (1.3kg)  
Size: 9.7in x 11.1in x 2.5in  
246mm x 282mm x 63mm

## Key Features

- Added amber LEDs for more color options and more vibrant color mixing
- Create static colors and RGBA color mixing without a DMX controller
- Automated and sound-activated programs generate great eye-catching effects
- Many user-configurable settings provide stand-alone versatility
- Edison power linking requires no special cables and saves time running cables and extensions
- Trigger built-in automated programs via master/slave or DMX
- LED par can be designed for any application where a compact wash light is needed
- Compact and low-profile fixture can fit in most places where other lights can't, only 2.5" deep and weighs less than 3 pounds
- MET certified, meets all standards for safety as set out by UL, CSA and many other federal agencies as safe for temporary and permanent installation in any venue
- Great for quiet installations thanks to its 100% silent operation and lack of moving parts

Only 2.5"  
Thick!
